12/15/88

Dear Gerry,

Thanks for your note, the pictures of your beautiful family and the remarkable Fletcher letter.

In the paper he was in charge of it all and in the letter to you he had only brief and unsubstantial connection with the whole thing. That is the FBI for you, to quote Marina Oswald.

While I don't think anything will make any difference to the local paper I think it might tend to indicate realities to them if they were to see that the man who told them he was in charge of everything told you he knows virtually nothing about anything.

Glad you trip was worhhwhile.

We were glad to meet you. Jerry McKnight is sorry he couldn't. (He did get the final done in time for it to be taken.)

Maybe there will be a next time and that time you can bring your family.

Hope you all have a good holiday and a good year,

Harold
